

IEEE RTCSA 2017 Poster Papers

Call for Papers

RTCSA 2017 will be holding a poster session to introduce exciting but preliminary research results. A two-page paper describing works that are currently in-progress should be submitted through the submission website at <https://easychair.org/conferences/?conf=rtcsa2017> before June 09, 2017 11:59pm GMT-12. Please note that submissions should be in IEEE conference proceedings format (two-column, single-space, 10pt) and should include the author names, affiliations, and related references.

Accepted poster papers will NOT be included in the RTCSA 2017 proceedings but will also be collected in the USB drive. Poster authors are at liberty to submit an extended version of their work to other conferences and to journals without violating common codes of ethics.

The authors of an accepted poster paper have to create a poster, register one author of the paper for the conference and present the poster in the 2017 RTCSA Poster session. The Best Poster Award will be presented at the conference Banquet on August 17.

Important Dates

Submission Deadline: June 9, 2017

Acceptance Notification: June 23, 2017

Final Paper Submission: June 30, 2017

Poster Chair:

Pi-Cheng Hsiu (Academia Sinica)
